## About Us

For smooth and flawless operation of machines and tools, a periodical survey is necessary to ensure that the parts of these machines are replaced on time once they wear out. Precision Moulds & Dies, an ISO 9001:2000 certified entity, was established in the year 1995 and is engaged in manufacturing a number of premium quality moulds and dies for numerous industrial applications. Our products are widely used in the plastic components manufacturing industry and rubber components manufacturing industry.

We are a leading manufacturer and exporter of premium quality dies and moulds, manufactured using the best of technical know-how and quality measures at every production and processing stage. Our wide product range covers Compression Moulds, Transfer Moulds, Injection Moulds for Rubber, Moulds for Plastic Components, Pressure Die Casting Dies, etc. Our specialization lies in designing & manufacturing Disposable Syringe Moulds at competitive prices. In addition, we are also a service provider of CAD Designing Facilities and Industrial CAD CAM Facilities.

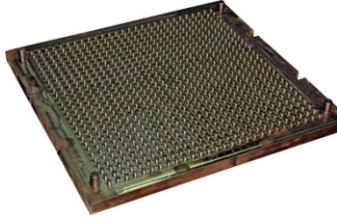

Designed in accordance with the standardized production norms, our products effectively cater to the requirements of both the national and international customers. Our prestigious clients include prominent entities including Lakhani Rubber, Bony Polymers, Rubber Tech, amongst others.

## Unmatched Quality

The production of superior quality moulds & Dies has always been a matter of prime concern for Precision Moulds & Dies. Therefore, we keep updating our working mechanism and manufacturing process to stay competitive in the industry. The quality of goods is given due importance, including their performance and market viability, which is thoroughly tested on various quality parameters.

We are an ISO 9001:2000 certified firm and take all imperative actions toward making flawless and error free moulds and dies that match the international standards of quality. An extensive use of superior quality input materials proves instrumental in making our products reliable and effective for all applications.

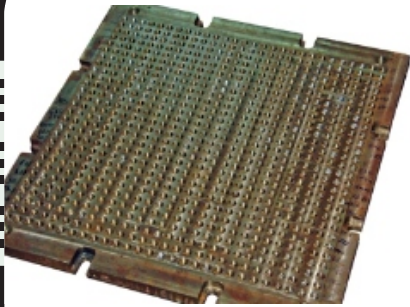

# Our Prodcuts

**Disposable Syringes  
Gasket Moulds**

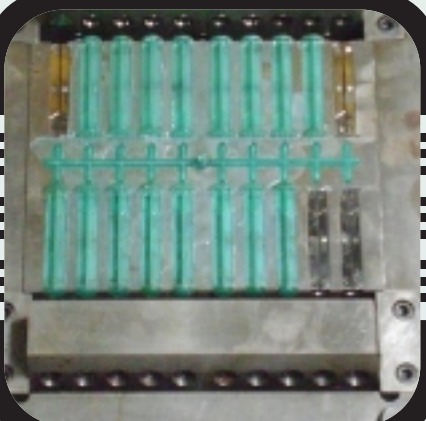

**Disposable Syringes Mould**

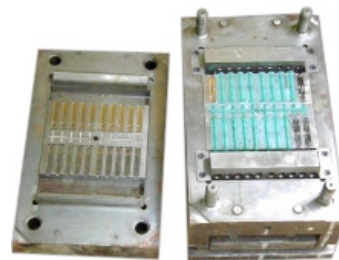

**Gasket Mould**

**Plunger Mould**

**Industrial Syringe Plunger Mould**

**Syringe Plunger Mould**

**Hose Mould**

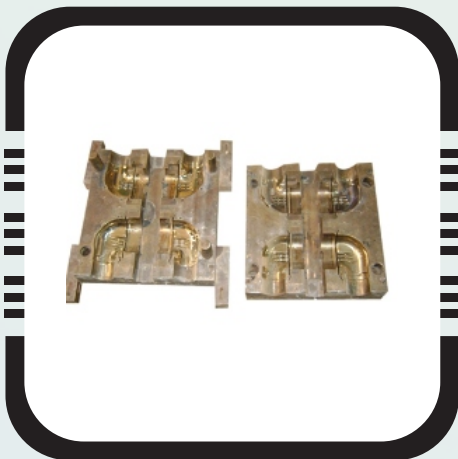

**Die Casting Dies**

**Brake Shoe Dies**

**Pressure Die Casting Dies**

**Injection Moulding**

**T- Mould PVC Pipe Fitting**
